METERING EFFICIENCY

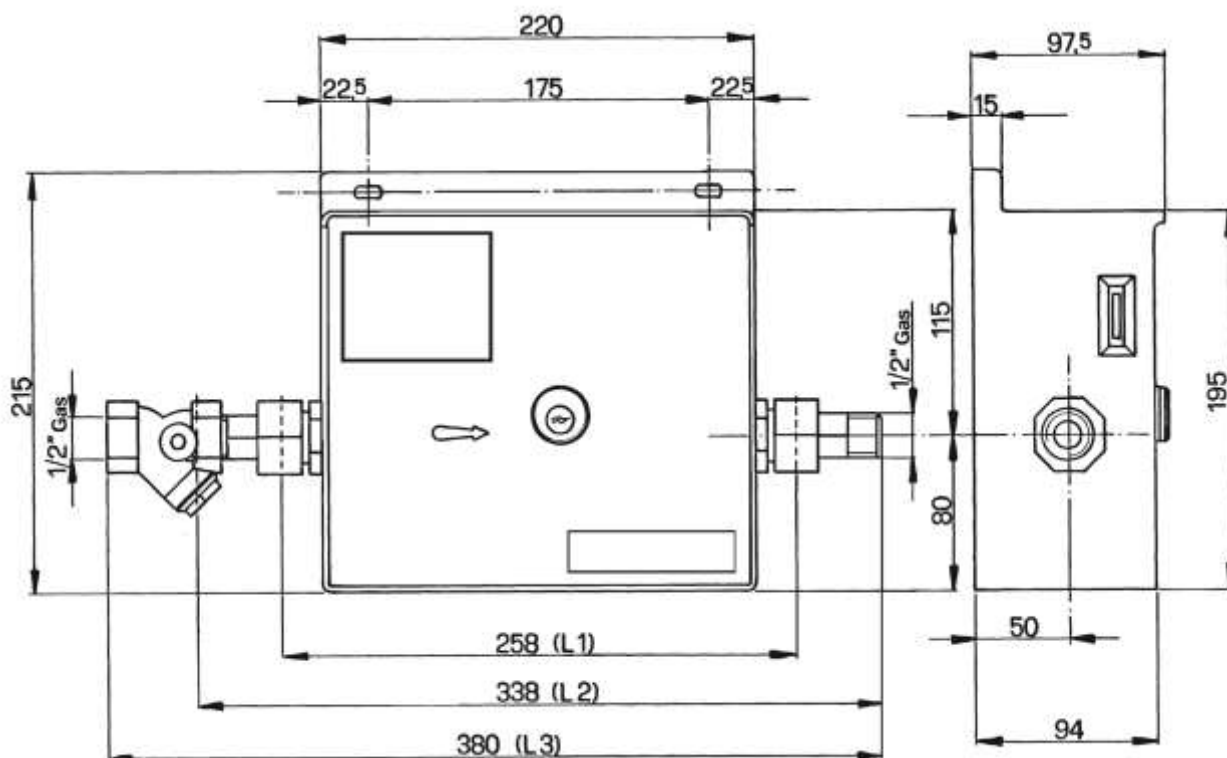

OSCAR II° *plus*

COIN OPERATED METER

- ❖ Coin-operated water meter
- ❖ OSCAR II° *plus* model with shaped customized token
- ❖ Designed for easy and simple control and metering of both cold and hot water consumption up to 90°C
- ❖ Useful in self-service car wash stations, campsites, beaches, communal laundries in apartment blocks and all public places where water supply control is needed to avoid unnecessary waste.
- ❖ Internal parts made entirely of 18/8 STAINLESS STEEL and OT/58 BRASS, so as to guarantee a perfect functioning whatever the quality of water.

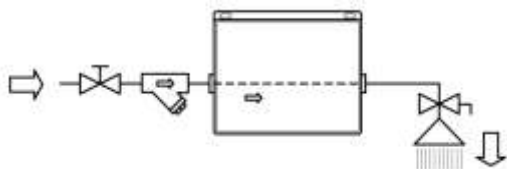

OSCAR II° plus

The Company's policy is one of continuous product improvement and the right is reserved to modify the specifications contained herein without notice. Illustrations are not binding 02-25

INSTALLATIONS AND START UP INSTRUCTIONS

SAMPLE DIAGRAM

The OSCAR II° plus, unlike normal water meters, must be **FIXED TO THE WALL** so it is essential to carry out the following operations chronologically:

- Apply the IMPURITY COLLECTOR with the outlet facing down.
- Install the meter to the wall with the fittings perfectly horizontal.
- Connect the meter to the water inlet and outlet piping using a hose.
- During assembly operations make sure that all parts are perfectly clean.
- All operations shall be performed with the meter lid closed.
- It is good practice to apply a gate valve before the impurity collector.

START UP:

- Turn the water tap on
- Let the water run until the meter stops
- if water does not come out, insert a token.

OSCAR II° plus COIN-OPERATED WATER METER

It is a device used to dose the supply of hot and cold drinking water by introducing a special OSCAR II° plus token. IT WORKS MECHANICALLY, with no need for electrical connections.

The amount of water used, with a token, is CONSTANT and cannot be changed unless the device is returned to the manufacturer, which will reset the apparatus

The purchaser shall inform the manufacturer which and new different quantity of water is to be delivered using a token.

Fix the amount of water (in litres) to be delivered with a token, choosing from the following:

5 - 10 - 12 - 15 - 18 - 20 - 25 - 30 - 40 - 50 - 100

(other values are available on request)

The coin-operated meter requires no maintenance or lubrication.

WORKING PRESSURE

- minimum 1 bar
- maximum 5 bar

The OSCAR II° plus meter is equipped with the following accessories:

- n. 2 pipe fittings (nut, tailpiece, gasket)
- n. 1 bronze impurity collector with stainless-steel filter
- n. 50 OSCAR II° plus tokens

For higher pressures, fit pressure reducer on page 61
